

P Surender Reddy

Hyderabad, Telangana | +91 8919659102 | surender.scorpion@gmail.com | GitHub: github.com/Surender24

SUMMARY

Final-year AI and ML undergraduate with strong foundations in Machine Learning and Deep Learning. Experienced in building CNN-based image classification models and full-stack applications using PyTorch, Django, and React. Passionate about solving real-world problems through scalable software systems and data-driven solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C, JavaScript, SQL, HTML, CSS

Machine Learning & Deep Learning: Scikit-learn, NumPy, Pandas, Matplotlib, PyTorch, Supervised and Unsupervised Learning

Web: React.js, Django, Flask

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Docker

Core Computer Science Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Cloud Computing

INTERNSHIP EXPERIENCE

Software Intern — Bharat Janta Mart (BJM) | Remote

Feb 2026 – Mar 2026

- Contributing to design and development of e-commerce software solutions
- Assisting in backend feature development and API integrations
- Participating in research and system enhancement initiatives
- Collaborating in remote Agile workflow and sprint planning

PROJECTS

Road Object Detection in Foggy Complex Scenes Using Improved YOLOv10 | PyTorch, OpenCV, Deep Learning

2026

- Developed an improved YOLOv10-based object detection model for detecting road objects in foggy environments.
- Enhanced detection performance using preprocessing techniques and transfer learning on a foggy road-scene
- Trained and evaluated the model, measuring performance with Precision, Recall, and F1-Score.
- Built a system suitable for intelligent transportation and Advanced Driver Assistance Systems (ADAS) by enabling robust object detection in challenging weather conditions.

Travel Booking Platform | Django, PostgreSQL, React, REST APIs

2025

- Developed a full-stack travel booking system using Django framework.
- Designed normalized PostgreSQL schema for efficient data retrieval.
- Implemented user authentication and admin dashboard for booking management.
- Created REST APIs for smooth frontend-backend communication.

Spectacles Detection using CNN | PyTorch, Deep Learning

2025

- Built a Convolutional Neural Network (CNN) for binary image classification to detect whether a person is wearing spectacles.
- Implemented multiple convolution, ReLU, and pooling layers for hierarchical feature extraction.
- Used Binary Cross-Entropy Loss and Adam optimizer for training.
- Achieved 87.5% validation accuracy and evaluated performance using precision, recall, and F1-score.

EDUCATION

Guru Nanak Institution of Technical Campus

Telangana, India

Bachelor of Technology in CSE(AI & ML) – CGPA: 8.1

Oct 2022 – Aug 2026

Sri Gayathri Junior College

Hyderabad, India

Intermediate (12th Grade) – Percentage: 92.5

2020 – 2022

Dilsukhnagar Public School

Hyderabad, India

Secondary School (10th Grade) – Percentage: 100%

2020

CERTIFICATIONS

Prompt Engineering for ChatGPT

Coursera

Completed advanced prompt engineering concepts

2024

Machine Learning using Python

Simplilearn

Learned supervised and unsupervised learning, model evaluation and feature engineering

2025

Deloitte Australia Data Analytics Job Simulation on Forage

Deloitte

Completed a Deloitte job simulation involving data analysis and forensic technology

2026

ADDITIONAL INFORMATION

Languages: English, Telugu, Hindi

Interests: Problem Solving, AI, Full Stack Development
